

PAiP-2025 conference "Particle Astrophysics in Poland"

Friday, 21 February 2025

Cosmic Rays - room 1.01 (14:00 - 15:30)

-Conveners: Henryk Wilczyński

time	[id] title	presenter
14:00	[83] The Pierre Auger Observatory: Current Status and Expectations from the Upgrade	GORA, Dariusz
14:17	[113] Muon content of air-showers - methods of studying the problem and recent results	PEKALA, Jan
14:30	[100] A strong dependence of the radio emission of air showers on X_{\max} and primary composition	CARVALHO JR, Washington
14:43	[110] Intriguing correlation between earthquakes and cosmic radiation	HOMOLA, Piotr
14:56	[141] Status of the JEM-EUSO Collaboration: Ground, Balloon, and Space-Based Observations of UHECRs and Related Phenomena	PLEBANIAK, Zbigniew
15:13	[158] Solar modulation of galactic cosmic rays-recent updates	GIL, Agnieszka
