

DRD1 Collaboration Meeting 2025 First Announcement

Warsaw, April 24, 2025

Dear DRD1 Colleagues,

We are delighted to welcome you to Warsaw (Poland) for the DRD1 Collaboration Meeting (outside CERN) from October 6 to 10, 2025.

This week-long event is a unique opportunity to bring together the entire DRD1 community for a vibrant exchange of ideas, results, and future visions. Whether your work focuses on detector R&D, simulation and data analysis, electronics development, or coordination across work packages, your contributions will be central to the success of the meeting.

In addition to a rich scientific program, the meeting will provide space for open discussions on the activity of the different working groups, and networking across institutions from all around the World. Social and scientific activities will further enrich the experience and help foster new collaborations. We particularly encourage the participation of early-career scientists. Researchers under 35 years old are invited to apply for a Young Researchers Grant via the Registration -> Young Researchers, that will cover the participation fee and accommodation (already open).

Grant section on the meeting website.

- Application Deadline: August 1, 2025
- Notification of Results: September 1, 2025

Important Dates

- **April 15, 2025** (12:00 CET): Registration and Young Researcher Grant applications open
- **August 1, 2025**: Young Researcher Grant application deadline
- **September 5, 2025**: Early registration fee deadline (on-site participants)
