

Annual report 2026

Piotr Życki

Scientific Activity

Weak Line Quasars:

Project led by Laetitia Gibaud and Marek Nikolajuk (UwB)

Part 1: Modelling of the continuum emission of SDSS J101353.45+492758.1

Paper submitted, waiting for report

Part 2: Modelling the emission lines, based on continuum models

The main idea of the paper is clear, a lot of computations done, paper to be written

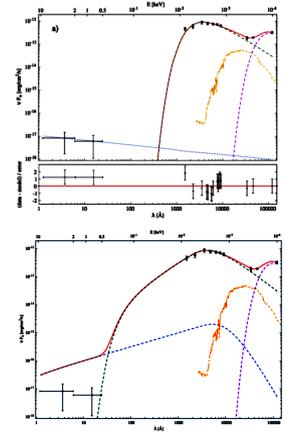

Part 3: Analysis of a sample of objects

TBD

Fe K lines from an accretion disk with a warm corona:

Project led by Parikshit Biswas and Agata Różańska

Paper accepted to A&A

CAMK PAN Scientific Council

A long list of PhD candidates – looks like a lot of work ahead of us this year

Astronomy & Astrophysics

Our favourite astronomical journal these days
