

## Session Program

4-6 Feb 2026

## CAMK Annual Meeting 2026

### *Galactic Archaeology*

Bartycka 18

# Wednesday 4 February

14:35

## Galactic Archaeology

**Session** | **Location:** Bartycka 18 | **Convener:** Krzysztof Hełminiak

14:35-14:40

### **Spectro-Photometric Method for Accurate Atmospheric Parameters for the Metal-Poor Stars**

**Speaker**

Dr . Deepak

14:40-14:45

### **A holistic analysis of the metal-poor Milky Way**

**Speaker**

Arthur Alencastro Puls

14:45-14:50

### **The history of C, N, and O in the Galaxy**

**Speaker**

Heitor Ernandes

14:50-14:55

### **Tracing the metallicity gradient with open clusters**

**Speaker**

John Eduard Martínez Fernández

14:55-15:00

### **Spectroscopic analysis of bulge globular clusters**

**Speaker**

Sergen Özdemir

15:00-15:05

### **Supervised machine learning and large spectroscopic surveys for Galactic Archaeology**

**Speaker**

Thibault BOULET

15:05
