Facilities we have access to

INFRARED
ASTRONOMY
ESO/ALMA

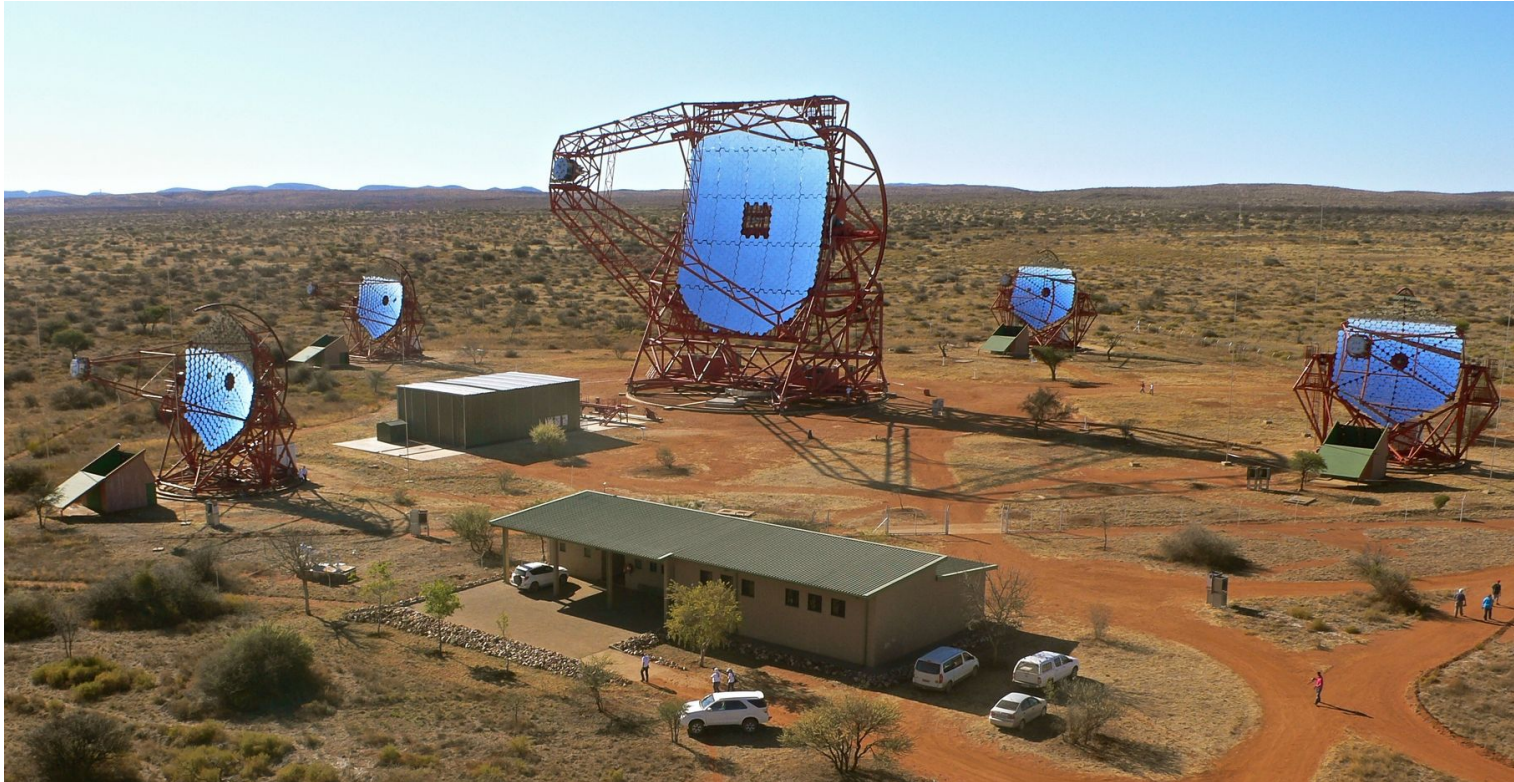

Facilities we have access to

GRAVITATIONAL WAVES
LIGO/Virgo/KAGRA

Facilities we have access to

GAMMA-RAY
ASTRONOMY
H.E.S.S.
SST-1M
CTA

Facilities we have access to

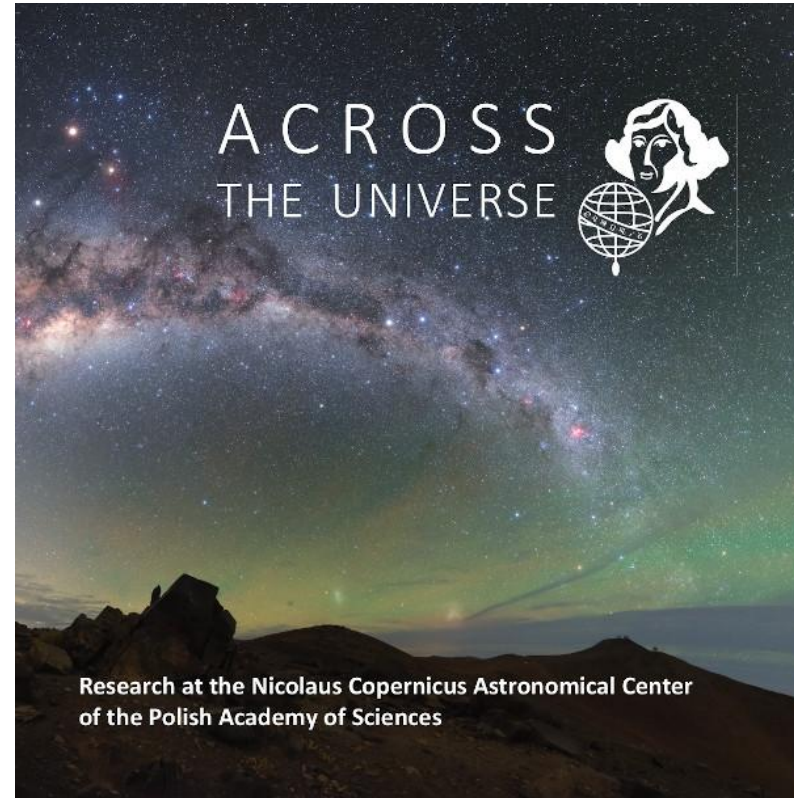

QUANTUM COMPUTING
LUMI-Q

Research projects

ATHENA

Welcome to the 2026 Young Astronomers Meeting at CAMK

Research is... not exactly the easiest career choice.

You are your own boss - which means you are also your own employee, intern, and IT support.
You define the problems, do the hardest work, and then politely listen as others explain what you did wrong.

And yet...

It's also one of the most rewarding things you can do.

You chase questions no one has answered before, you get those rare but magical moments when things finally work, and sometimes — people even cite your papers.

And in the end, **there is nothing better than stargazing into the Universe.**

Welcome — and enjoy the conference!
