

# LIDINE 2022: LIght Detection In Noble Elements

## Thursday, 22 September 2022

### Poster session - 316A (15:30 - 16:30)

| time  | [id] title   | presenter                  |
|-------|--|----------------------------|
| 15:30 | [57] Optical simulation study and Testing of ASIC chip                                       | AHMAD, Iftikhar            |
| 15:30 | [10] DAPHNE digitizing system for DUNE SP-PD   | Mr BENITEZ MONTIEL, Carlos |
| 15:30 | [1] Muon Energy reconstruction and neutrino astronomy with the DUNE far detector.            | Mr SINGH, Jaydip           |
| 15:30 | [40] Xenoscope - a full scale vertical demonstrator for the DARWIN observatory               | CIMENTAL, Paloma           |
| 15:30 | [55] Measurements on refractive index of wavelength shifters                                 | GELLI, Bruno               |
| 15:30 | [22] Charge Flash Matching in SBN's near and far detectors to discard cosmic ray backgrounds | DE ICAZA ASTIZ, Iker Loïc  |
